QUALITY POLICY

It is the policy of Straight 2 Site Ltd to seek continuing improvements in:

THE SUPPLY OF ACCESSORIES TO THE CONSTRUCTION INDUSTRY

Including on time, in accordance with stated customer's requirements, with minimal impact on the environment and to seek continuing improvement to the QMS. We recognise that this goal will only be achieved by our commitment to effective and efficient Quality and Environmental Management and Good Business Practice at all levels and within every function in our organisation.

To support these aims, the Company

- Has implemented a QMS which complies with the requirements of ISO 9001: 2015
- Is committed to establishing and reviewing objectives.
- Is committed to the process of continual improvement and the prevention of pollution in all parts of its operation.
- Is committed to meeting all applicable legislation

We recognise that our personnel are our ultimate strength and we are committed to their continual development and training.

We are committed to never compromising on quality or environmental integrity as to do so would mean to fail in our aims laid out above.

The contents of the Quality and Environmental Manual are mandatory and it is the responsibility of all personnel to ensure that procedures are followed.

This Policy and Objectives will be reviewed at each Management Review Meeting which are held once per year. The documentation supporting the Objectives will be reviewed and the Management Team will discuss their findings and set or amend Objectives accordingly. Taking into account the significant risks and opportunities to the business and employing evidence-based decision making to lead the business
